

# ALEX WHITE

SOFTWARE ENGINEER

alex.white017@gmail.com • (205) 948-7233 • Birmingham, Alabama • [alex-white.vercel.app](https://alex-white.vercel.app)

## PROFESSIONAL SUMMARY

Software engineer with hands-on experience building web applications using React, JavaScript, PHP, and Laravel. Skilled in front-end development, WordPress theme engineering, and agile workflows. Passionate about creating clean, responsive user interfaces and delivering high-quality digital products.

## EXPERIENCE

### Junior Developer Nov 2025 – Present

Kinetic Communications | Birmingham, AL

- Build and maintain custom WordPress themes and full-stack web applications using Laravel, React, and PHP.
- Develop and configure Sage-based WordPress builds, leveraging modern front-end tooling and Blade templating for scalable theme architecture.
- Collaborate with designers and project managers using Git version control and agile development workflows to deliver projects on time.
- Implement responsive, accessible front-end interfaces with HTML, CSS, JavaScript, and modern frameworks to enhance user experience.

### Developer Intern Aug 2025 – Nov 2025

Kinetic Communications | Birmingham, AL

- Contributed to a variety of WordPress sites and custom themes built with Laravel and React.
- Gained hands-on experience with Git version control and agile workflows to support efficient project delivery.
- Assisted in front-end development using HTML, CSS, JavaScript, and modern frameworks to enhance UI functionality.

### Co-op Software Engineer Aug 2019 – May 2021

UDA Technologies | Auburn, AL

- Built new pages and UI components using HTML, CSS, and JavaScript based on provided design specifications.
- Investigated and resolved client-reported bugs in the company's cloud-based construction management software.
- Developed responsive mobile web interfaces to improve usability across devices.

## EDUCATION

### Bachelor of Science in Software Engineering Aug 2017 – May 2022

Auburn University | Auburn, AL

**Relevant Coursework:** Software Modeling & Design, Software Quality Assurance, Introduction to Algorithms, Software Process

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python, Java, PHP, HTML, CSS

**Frameworks & Tools:** React, Laravel, WordPress, Sage, Flutter, Dart, Git, Agile/Scrum

**Databases & Other:** SQLite, Ruby on Rails, REST APIs, Responsive Design, Cross-Platform Development

## PROJECTS

**PokeAPI Pokedex** — React web application providing quick, clean access to Pokéémon data via the PokeAPI, optimized for desktop and mobile. [pokeapiv2.vercel.app](https://pokeapiv2.vercel.app)

**Fetch App** — React application that fetches dog listings from an API and lets users filter and select dogs for adoption. [fetch-final.vercel.app](https://fetch-final.vercel.app)

**Zip App** — Senior capstone project — an Uber-style campus ride-sharing app built with Flutter and Dart, supporting both Android and iOS.
