ALEX WHITE

FULL-STACK WEB DEVELOPER

alex.white017@gmail.com • (205) 948-7233 • Birmingham, Alabama • alex-white.vercel.app

PROFESSIONAL SUMMARY

Full-stack web developer who builds custom WordPress themes and Laravel and React applications, now maintaining client WordPress and Webflow sites. Comfortable shipping on deadline with designers and project managers.

EXPERIENCE

Website Support Developer *Jun 2026 - Present*
Infomedia | Birmingham, AL

- Build and maintain custom WordPress themes in PHP, JavaScript, and CSS, plus Webflow and Laravel sites.
- Work with around 300 clients across site takeovers, launches, and ongoing fixes.
- Migrate sites from other hosts and platforms and configure DNS records for live client domains.
- Implement and debug Google Analytics and Tag Manager tracking, and turn client requests into technical fixes.

Junior Developer *Nov 2025 - May 2026*
Kinetic Communications | Birmingham, AL

- Built custom WordPress themes and full-stack apps for agency clients using Laravel, React, and PHP.
- Developed Sage-based WordPress themes with Blade templating and modern front-end build tooling.
- Resolved production issues on live client sites, including security scanner failures and CDN configuration.
- Worked directly with designers and project managers in an agile workflow, using Git to ship features on deadline.

Developer Intern *Aug 2025 - Nov 2025*
Kinetic Communications | Birmingham, AL

- Contributed front-end and theme work to client WordPress sites built with Kadence blocks.

Co-op Software Engineer *Aug 2019 - May 2021*
UDA Technologies | Auburn, AL

- Built new pages and UI components in HTML, CSS, and JavaScript from design specs.
- Investigated and fixed client-reported bugs in a cloud-based construction management platform.
- Developed responsive mobile web interfaces to improve usability across devices.

PROJECTS

PokeQuiz - Full-stack Pokémon quiz app where players identify Pokémon in a hangman-style game with hints that reveal stats, typing, generation, and silhouette. Built with a Laravel REST API backend and a React frontend. pokequiz-brown.vercel.app

Homebar - Cocktail recipe browser and home bar inventory manager. The cocktail list is decided by what the user has in their bar. Built with Next.js, TypeScript, and Drizzle ORM, seeding data from TheCocktailDB. homebar.xyz

Disc Golf Tracker - Full-stack disc golf scoring app with multiplayer rounds, course management, a disc bag, leaderboards, and player stats. Built with a Laravel 12 REST API and a React frontend. disc-golf-app-flame.vercel.app
